Trust Market Overview

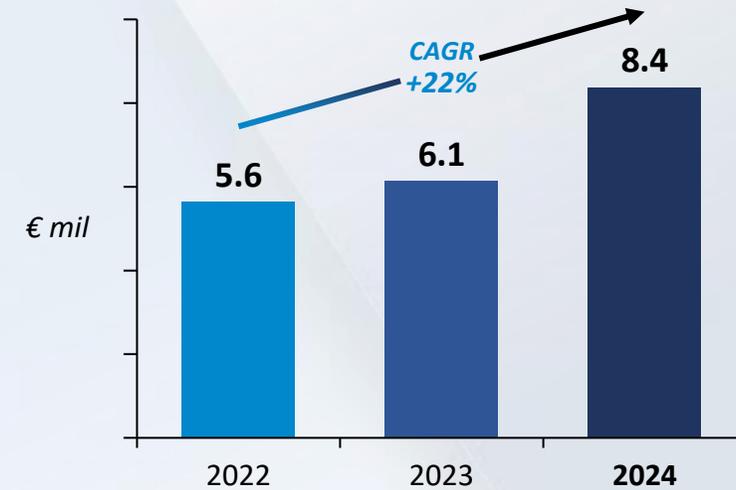

GR & EU Addressable Market Growth

- ✓ **EMEA Digital Trust market** considered, given existing geo coverage prese;
- ✓ **Greece** representing only a small fraction (~€5m - €9m in 2024-2029) **growing faster that EU average at 14%**.

Source: Gartner, IDC

IDEAL IT Trust Services Revenues

- ✓ **>60%** of total revenues derived from **international business**

Source: IDEAL Management Accounts

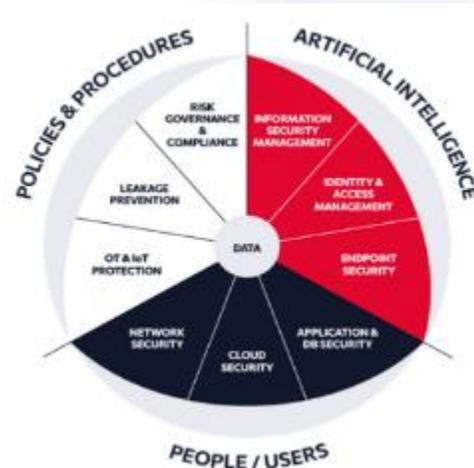

III. Cybersecurity Services

Business Overview – Cybersecurity (1/2)

A. IntelliMesh Architecture

- ✓ Unified proprietary architecture combining **Zero Trust with Artificial Intelligence** in compliance with NIS2, DORA and ISO standards.
- ✓ Integrates distributed **security controls across cloud, on-premise and hybrid** environments ensuring a unified security posture.
- ✓ Combines on **best of breed technologies** from the largest vendors worldwide.

Network Security

Endpoint & Mobile Security

Cloud and application Security

Identity & Access Mgmt (IAM/IdAM)

Data Security

Security Awareness

Governance, Risk & Compliance

B. SOC Cyber Defense Services

- ✓ **AI Driven XDR** – Unified detection and response across endpoints, networks, identities & cloud
- ✓ **Cyber Threat Intelligence (CTI)** information from several sources for proactive defense
- ✓ **Incident Response (IR)** – 24x7 incident containment, forensics analysis and coordinated recovery

C. Cyber Resilience through GRC services

- ✓ **Risk Assessment & Management** – Identification and evaluation of business, technical, and operational risks.
- ✓ **Security Audits & Maturity Assessments** – Evaluation against ISO 27001, NIS2, DORA, GDPR, and sectoral regulations.
- ✓ **Policy Development & Implementation** – Design and deployment of governance and cybersecurity policies.
- ✓ **Business Continuity & Disaster Recovery Planning (BC/DR)** – Ensuring operational resilience and crisis preparedness

D. Assurance Services

- ✓ **Penetration Testing (Red Team / Blue Team)** – Network, application, and social engineering testing.
- ✓ **Vulnerability Management & Compliance Monitoring.**
- ✓ **Security Consulting & Advisory** – Strategic guidance for cybersecurity transformation and compliance.
- ✓ **Awareness & Training Programs** – Empowering employees through tailored cybersecurity education.

Case Study (1/2)- IT Security for Consumer Company

Multinational Consumer Company

Customer Challenge

- ✓ The customer is a **multinational consumer products** company with leading presence in **Eastern Europe** and an expanding geographical footprint.
- ✓ With **strong presence in 13 countries** and a powerful **distribution network in over 50 countries** around the world, they needed to:
 - ✓ **Protect all Corporate Data**
 - ✓ **Securely adopt AI (Copilot)**

Our Solution

The following services were provided:

- ✓ **Classification of Data** on-prem and in the cloud
- ✓ Monitoring and **protection from data leakage**
- ✓ **Business workshops and awareness** of data owners for proper handling of data
- ✓ Enforcement of **DLP policies**
- ✓ **Discovery and Protection from Shadow AI/3rd party generative AI tools**
- ✓ **M365 Copilot Readiness** through security, compliance and governance of data

Case Study (2/2) - OT Security Services for Energy Company

Critical Infrastructure (Energy)

Customer Challenge

- ✓ The customer is one of the **leading critical infrastructure providers** in Greece.
- ✓ With a mission to **operate, control, maintain and develop Greece's national transmission system** they work to guarantee a reliable and efficient **electricity supply**, as well as the operation of the electricity market following the principles of transparency and equality.

Our Solution

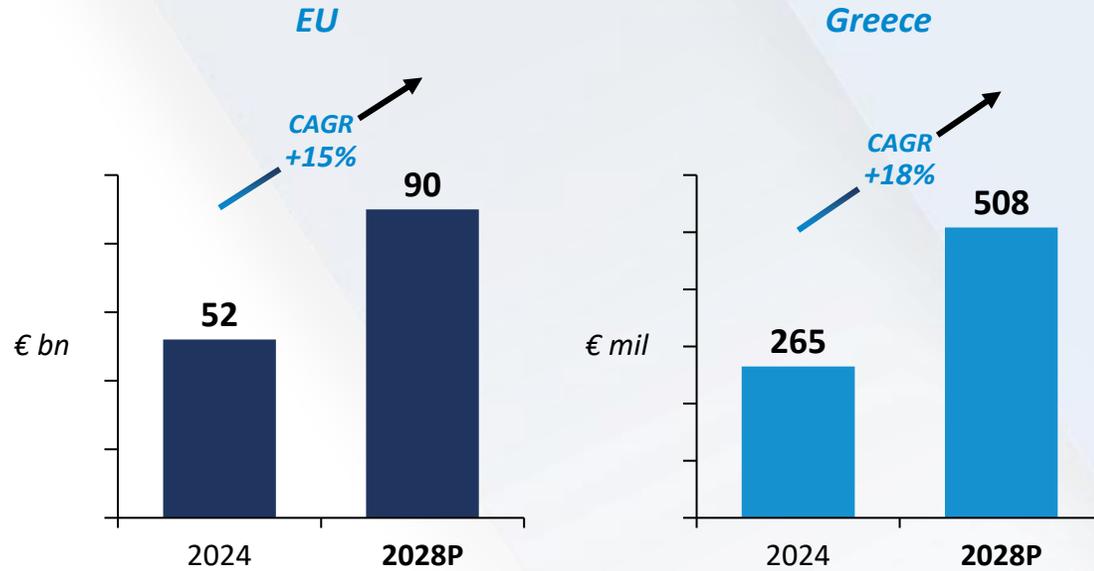

The following services were provided:

- ✓ **Design and implementation of a dedicated OT solution** (Clarity) for industrial environments
- ✓ **Asset discovery** and continuous OT network monitoring
- ✓ **Threat detection** using our SOC platform through integration with the OT solution
- ✓ **Incident response** and **forensic analysis** for OT environments
- ✓ **Secure remote access** with ZTNA and RPAM
- ✓ **Compliance reporting** aligned NIS2 and other frameworks

Case Study (1/2) - National eHealth Record

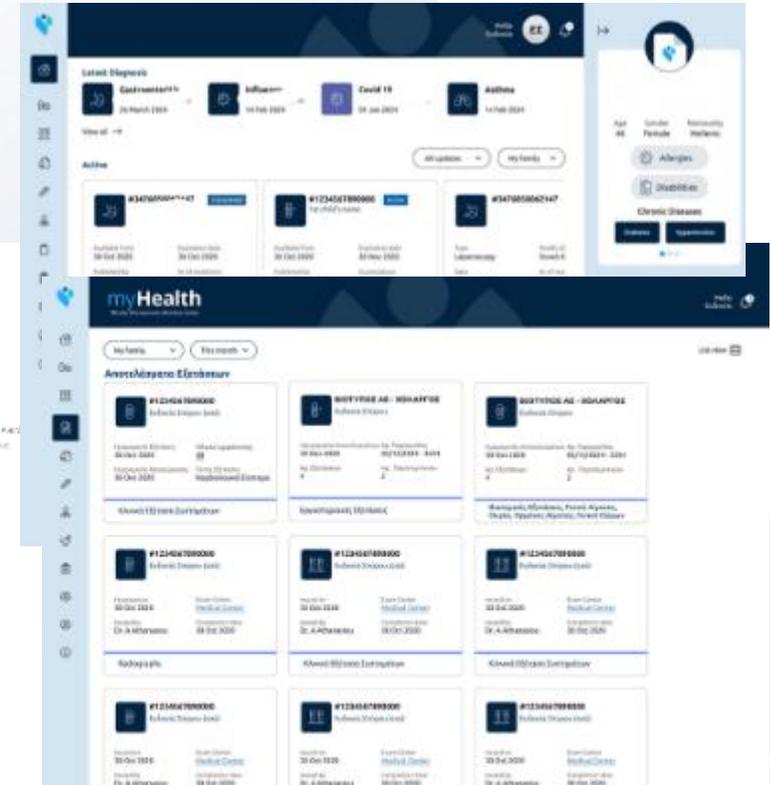

Total Budget: €37 mil
(member of a joint venture)
In full operation since May 26th, 2025
(<https://citizen.ehealthrecord.gov.gr>)

Benefits for Citizens

- ✓ Safe & full access to their medical history either from web or mobile app any time from everywhere
- ✓ Improved communication with doctors
- ✓ AI bots for citizens assistance

Benefits for Doctors

- ✓ Full access to all patient medical history (diagnoses, medication, hospitalizations, interventions) gathered in one place
- ✓ Earn time for better clinical practice
- ✓ Safe and easy collaboration with other health professionals
- ✓ AI bots for effective information management

Minister of Health Mr. Adonis Georgiadis declared among others that *“The launch of the National eHealth record is a historic moment for the digital reform of public health in Greece”*. Minister of Digital Transformation Mr. Dimitris Papastergiou declared among others that: *In collaboration with the Ministry of Health and through IDIKA we are proceeding with a set of digital projects and make the daily life of the citizens and its operators easier.*

[Press release](#)

Case Study (2/2) – Azure Infrastructure Modernization

Customer Challenge

- ✓ A public Critical Infrastructure needed to modernize its IT infrastructure by moving workloads from on-premises datacenters to the cloud, while ensuring business continuity, security, and compliance.
- ✓ A key requirement was the implementation of a Disaster Recovery solution to guarantee resilience and availability of critical services.

Our Solution

- ✓ We designed and deployed a complete Azure environment based on Microsoft's Enterprise-Scale Landing Zone framework, following a Hub & Spoke topology.
- ✓ Migrated existing workloads to Azure using Azure Migrate.
- ✓ Implemented secure identity and access management integrated with Azure AD.
- ✓ Deployed Azure Virtual Desktop (AVD) infrastructure for remote work and application access.
- ✓ Enabled Azure Backup and Azure Site Recovery across availability zones for business continuity.

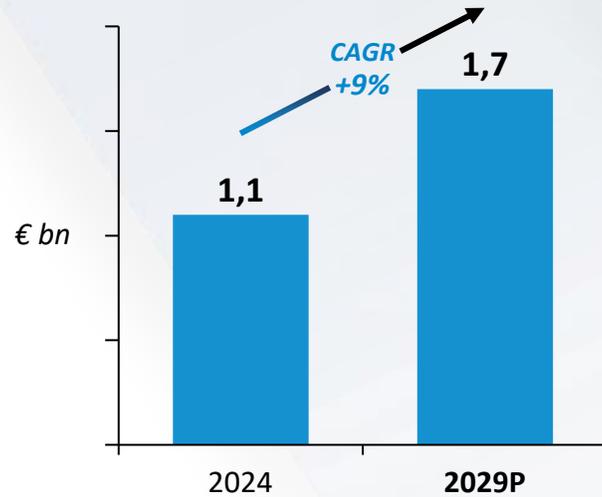

Outcome

- ✓ **Successful migration of core workloads** to Microsoft Azure.
- ✓ **Modern, scalable, and secure cloud infrastructure** aligned with best practices.
- ✓ **Disaster Recovery readiness** with automated failover capabilities.
- ✓ **Improved user experience** through Azure Virtual Desktop with centralized management.
- ✓ **A future-ready IT foundation** supporting EYATH's digital transformation goals.

IT Services Market Overview

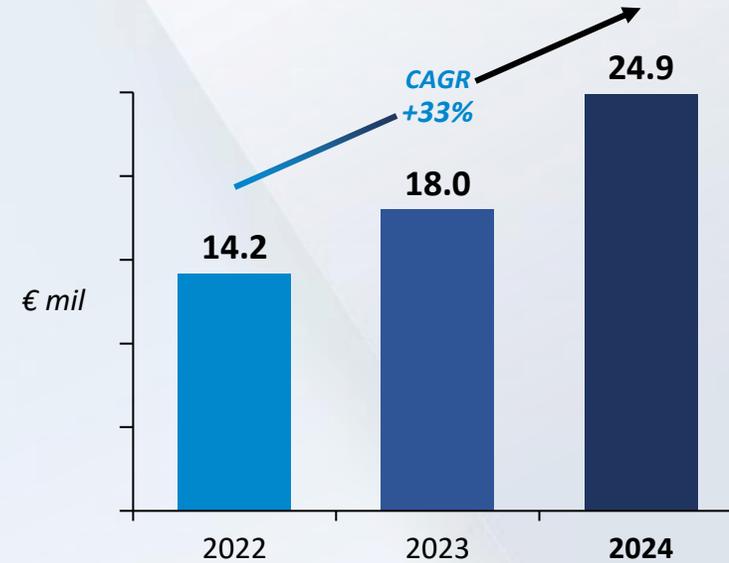

GR Total Addressable Market Growth

- ✓ The total **Addressable Market (TAM)** is defined for segments where the company generates more than 1% of its total revenue.

V. IT Solutions

Business Overview – Key Service Areas

Driving performance through technology excellence

IT Infrastructure Deployment

Design and implementation of server environments, networking systems, and structured cabling.

Business Continuity & Mobility

End-to-end solutions ensuring operational resilience and secure remote access capabilities.

Managed Services & Nationwide HW & SW Support

24/7 monitoring, NOC operations, & proactive maintenance
SLA-based support contracts across multiple locations

IT Consulting & Professional Services

Strategic IT advisory, project management, and tailored training programs to support digital transformation.

Managed IT Operations

Delivery of IT functions as a service, including Helpdesk-as-a-Service and other operational support models.

Specialized IT Staffing

Outsourcing of certified IT professionals to support customer operations and projects.

Case Study (1/2) – Greek Financial Institutions SLA

Customer Challenge

- ✓ Customers are **3 out of the 4 Greek major banks**
- ✓ Customers needed **technical support and maintenance** of their entire IT equipment installed across their nationwide branch network and administrative buildings.

Our services

- ✓ Installation of new equipment
- ✓ Onsite & Remote technical support (HW & SW)
- ✓ Consumables replacement
- ✓ Dedicated Help Desk
- ✓ Daily updates

Outcome

- ✓ Ensuring uninterrupted bank operations, rapid response and premium grade technical excellence.
- ✓ For **more than 2 decades** we support mission critical IT infrastructure with:

Case Study (2/2) – IT Systems Merger

Customer Challenge

- ✓ Following the **merger of two major construction companies**, the new entity still operated on separate IT environments with different Active Directory domains and Microsoft 365 tenants.
- ✓ This created a fragmentation across email, collaboration platforms, and user management.
- ✓ The **customer needed a unified, secure, and seamless digital workplace** under the new rebranded entity, without service downtime or user disruption.

Our Solution

We delivered a two-phase migration project:

- ✓ **Phase 1: Migration of all Microsoft 365 services** (Exchange Online, SharePoint, Teams, OneDrive) to the new consolidated tenant using automated tools, ensuring data integrity and minimizing user involvement.
- ✓ **Phase 2: Consolidation of Active Directory domains**, transferring 600+ users, devices, and servers into a single unified domain. Automation tools enabled remote migrations across multiple branch offices without requiring physical intervention.

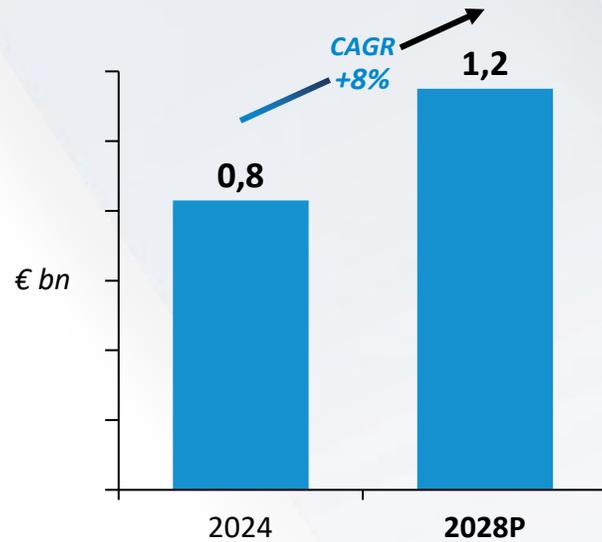

Outcome

- ✓ **Successful consolidation of IT environments** into a single Microsoft 365 tenant and Active Directory domain.
- ✓ **Zero data loss** and minimal downtime during the transition.
- ✓ **Simplified user experience** with one set of credentials for all services.
- ✓ **Stronger security posture** through centralized identity, MFA, and endpoint management.
- ✓ A scalable, **modern IT foundation** supporting the rebranded organization's future growth.

IT Solutions Market Overview

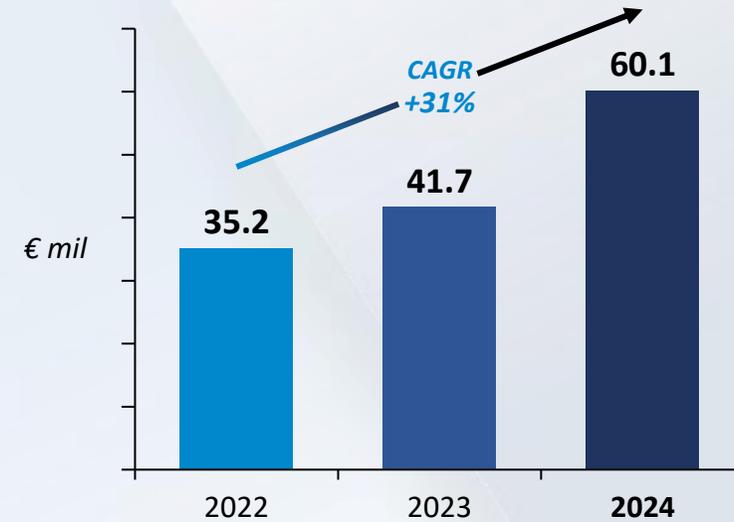

GR Total Addressable Market Growth

- ✓ The total **Addressable Market (TAM)** is defined for segments where the company generates more than 1% of its total revenue.

Important Notice

This presentation has been prepared by IDEAL Holdings S.A. solely for informational purposes for its public stockholders in connection with evaluating the business, operations and financial results of IDEAL Holdings S.A. and its subsidiaries (collectively, "IDEAL"). This presentation is not and shall not be construed as an offer to purchase or sell, or the solicitation of an offer to purchase or sell any securities of IDEAL Holdings S.A. Also, this presentation does not constitute investment advice or recommendation concerning the purchase, sale or subscription to any securities of IDEAL Holding S.A. and cannot be the basis of any such an investment advice or recommendation provided by any person, recipient of this presentation or not, to other recipients or third parties.

This presentation may not be distributed, referenced, quoted or linked by website, in whole or in part, except as agreed to in writing by IDEAL Holdings S.A. The statements contained in this presentation are made as of the date of this presentation (other than financial figures, which are as of most recent quarter end), unless another time is specified in relation to them, and access to this presentation at any given time shall not give rise to any implication that there has been no change in the facts set forth in this presentation since that date.

This presentation contains certain forward-looking statements pertaining to IDEAL, including with respect to the companies managed and owned by IDEAL. Forward-looking statements relate to expectations, estimates, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. You can identify these forward-looking statements by the use of words such as "outlook," "believe," "think," "expect," "potential," "fair", "continue," "may," "should," "seek," "approximately," "predict," "forecast", "intend," "will," "plan," "estimate," "anticipate," the negative version of these words, other comparable words or other statements that do not relate strictly to historical or factual matters.

These forward-looking statements are based on IDEAL's beliefs, assumptions and expectations, but these beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to IDEAL or within its control. Due to various risks and uncertainties, actual events or results may differ materially from those reflected or contemplated in such forward-looking statements. Past performance is no guarantee of future results. All forward-looking statements speak only as of the date of this presentation. IDEAL does not undertake any obligation to update any forward-looking statements to reflect circumstances or events that occur after the date of this presentation except as required by law.

This presentation includes certain non-IFRS and other operating and performance measures. These non-IFRS measures are in addition to, and not a substitute for, measures of financial performance prepared in accordance with IFRS. While we believe that providing these non-IFRS measures is helpful to investors in assessing the overall performance of IDEAL's business, they may not include all items that are significant to an investor's analysis of our financial results.

In addition, information about factors affecting IDEAL, including a description of risks that should be considered when making a decision to purchase or sell any securities of IDEAL Holdings S.A., can be found in IDEAL Holdings S.A.'s Reports made public as applicable law requires.
